

® remix

Combining the
performance you need
with the upholstered
comfort you love.

® remix

Tuned to perform

Remix celebrates an unconventional mix of innovation and tradition, resulting in a new performance for the upholstered chair.

By combining traditional values with modern materials, Remix brings dynamic movement to a conventional upholstered chair. The performance you need - the upholstered comfort you love.

Active Support

Featuring a Tandem Back which delivers immediate, plush comfort paired with Flex Net Matrix™ technology that provides resiliency, flexibility and all day support.

The Flex Net Matrix™ is made from the same high performance elastomer as the Be range, specially engineered and paired with a layer of cushioning for added comfort.

Adjustable tilt tension and a three-point tilt lock offer personalised fit.

With innovative performance elements and advanced ergonomic comfort, Remix supports fast-paced and demanding work environments. Allowing the user to sit in different postures and seamlessly accommodate the transitions between them.

FOR WAY

Formway is a research-led studio designing products for some of the world's most well-known and innovative furniture brands.

For over 50 years, Formway has focused on designing high performance seating and established a reputation for delivering world-class residential and commercial products.

Formway's designs are informed by insights gained through observation and consideration of human behavior. Their passion for people and design underpins their ability to create innovative solutions that fulfil genuine user needs.
